

Why work with us?

- 20,000 Directors helped
- 100% Director focused
- Over 20 years experience
- Recognised by The Insolvency Service on the Director Information Hub as a recommended place for Directors to take advice from

Unlike Insolvency Practitioners, we have **Director's best interests at heart**. We're here to explore ALL of their options (not just liquidation). Let us protect your clients by assessing any personal implications before they decide to close.

How to protect your clients

If your client is experiencing periods of poor trading, **stressful financial circumstances**, or is insolvent, as their accountant you need to protect them.

We're here to provide your clients with **the right advice at the right time** with our expert and confidential guidance.

Engaging with us **differentiates your accountancy practice** from your competitors by offering you an invaluable service should your clients require it.

Jonathan Cooper
Founder and Director

Insolvency

If your client is insolvent, we assess any personal implications beforehand and support them throughout the Liquidation process by introducing them to a **Licensed Insolvency Practitioner**.

Directors Loan Accounts

Overdrawn Directors Loan Accounts can affect a Director personally during Liquidation. Unlike Insolvency Practitioners, we protect your clients by **checking this beforehand**.

Restructuring

If your client needs to liquidate but wants to start again, we ensure the process runs smoothly. This means you retain your client and your relationship continues **healthier and stronger than ever**.

Personal Implications

Personal guarantees, directors loans, misfeasance, and failure to act responsibly can sometimes impact your client personally during insolvency. **We check this before** your client enters Liquidation.
